MATTHEW 25 GUIDES THE WORK OF WORLD MISSION IN MANY WAYS, THROUGH ...

- Accompaniment of global partners working for peace, reconciliation and healing:
 - Walking alongside the South Sudanese people to facilitate trauma healing for Sudanese refugees in South Sudan and Uganda.
 - Working with partner churches and organizations to give welcome, hospitality and vital support to migrants at borders around the world.
- Poverty eradication:
 - Partnering with the Church of Jesus Christ in Madagascar to address root causes of hunger and protect the integrity of God's Creation.
 - Working with church partners, organizations and networks to learn about and respond to the impact of migration among people who are fleeing from or displaced by poverty and violence.
- Ending systemic racism:
 - Walking with young adults serving in Young Adult Volunteer sites to address poverty and racism through the church and nonprofits within their service year within local context.
- Cultivating congregational vitality:
 - Working alongside partners globally by partnering with them in theological education, engaging in interfaith dialogue and addressing the upsurge of extremist ideologies.
- Addressing militarism and climate change:
 - Partnering with churches in the Pacific to explore ways to mitigate the impact of climate crisis, largely caused by greenhouse gases.
 - Leading civil society projects in Armenia to empower, educate and equip school and university students with necessary skills to reinstate democracy and bolster the people's solidarity.
 - Supporting local church denominations and agencies in essential work for peace and justice in countries around the world, including Colombia, Korea, Cuba and Israel Palestine.

THANK YOU
for making our work possible!
