## Welcome

### AFRICAN INTERCULTURAL MINISTRIES

When religious leaders had begun to pour their anger on the new emerging people of the WAY, Stephen was brutally stoned in Acts 7. Scripture continues in Acts 8, to describe dispersion of the Christians. Then came a Holy Spirit directed phenomenon, that is – “those who had been scattered ... preached the word wherever they went” (Acts 8:1,4). In our time this is what we may call “emerging ministries” among diaspora Africans.

Africans scattered by wars, hardship, economic collapse, injustices in governments, tribal wars, refugee systems of dispersion have arrived in the United States of America (USA). They are sharing the gospel under the power and direction of the Holy Spirit. Worshipping Communities are being birthed among African people groups settling in the USA. Fellowships of Ethiopians, Ghanaians, Kenyans, Sudanese, Cameroonians, Congolese and more are coming into the Presbyterian Church USA family. In reasonable frequency, some mono – cultural Churches are transforming into intercultural worshipping communities as they embrace Africans in warm hospitality. African Intercultural Ministries have become part of the movement in PCUSA to see 1001 New Worshipping Communities come into existence within the next decade.

### CONGREGATIONAL SUPPORT

The basis of Congregational Support is the principle of sharing in Mission. It is “koinonia”! It is sharing and partnership that mutually builds up communities in the grace of the Lord. A good illustration of this principle is the task of a bee that picks up pollen by flying to and fro, from flower to flower as it looks for nectar and, in the process, shares the fertilizing power in the pollen, wherever it goes, for the growth of fruits. When it fills its belly with nectar, it is for the production of honey that all the bees in the hive may feed on for survival.

We must ensure that we learn the best practices of our Christian worship from each other, and that we learn from the best practices in the Presbyterian Church (USA). These tasks will be top priority in this Ministry. In our efforts to do these, Churches, fellowships and Worshipping Communities will become sources of inspiration to each other as they connect each other through organized meetings at which Africans meet. This ministry will seek to connect African groups with each other. There are several ways and forms of “sharpening iron with iron” (Proverbs 27:17). However, unless we are able to meet together under one roof for celebrations and deliberations on issues of common concern to African Immigrants, we will continue to be disconnected groups of people from African Nations that have nothing to do with each other.

As the Field Staff for African Intercultural Ministries it is my hope that I may be the catalyst to ensure that congregations are supported, problems are handled well at the Mid Council levels and that growth of the African Worshipping Communities occur in the PCUSA.

## Welcome

### THE LANDSCAPE FOR AFRICAN INTERCULTURAL MINISTRIES IS CHANGING....

About two decades ago as emerging African Leaders our groups, became prominently recognized as a new wave of arrivals into the Presbyterian Church USA. Our leadership strongly emphasized the joy of forming groups that worshipped in their mother tongues. Most of the Churches that remained mono-cultural have found it hard to grow enough for chartering in PCUSA. Some groups have experienced splits as factions followed their leaders. Some groups have died. Some of our leaders have died in America. Other leaders have gone back home to Africa, after their struggles with immigration. A recent interest of some overseas partner denominations of PCUSA to open their Churches in America has drained membership from our PCUSA Churches, Fellowships and Worshipping Communities as people who stress their culture leave the PCUSA to join the African initiatives.

The success of new immigrant children growing in America has created the necessity for introducing “English” worship services and ministries in African churches. Our second-generation “America – born” young adults are often classified as African – Americans. The most comfortable places where such young people gravitate and flourish are in the “inter-cultural” PCUSA Churches.

The new reality attracting African immigrants is PCUSA intercultural Churches. In them, the Africans in membership constitute the larger percentages of ethnic composition but worship in English. The significant hospitality, generosity and the love that Africans experience in PCUSA are catalyst for this changing landscape. Some large PCUSA Churches have boldly created positions on staff for African Pastors and Lay Leaders to enable them to provide culturally relevant pastoral care, for their African members. In some cases, additional worship spaces and special times for African worship experiences are created to accommodate them. With this phenomenon has come also increased involvement of congregations and Mid Councils in mission work directed to Africa through the assistance of their African members. Usually the exciting information on these new Mission frontiers, are shared at the World Mission African Network meetings.

### THE DIRECTORY OF AFRICAN INTERCULTURAL MINISTRIES

This directory attempts to present a picture of changing landscape as it is now. Even at this time some PCUSA Churches are going through changes because of the numbers of Africans that are joining them. A number of Churches are also counted among African–American Churches who are full of Africans or are by majority people from Africa.

Attempting to discover and count African young people, one young person whose parents are Nigerians said to me “my parents come from Nigeria, I am African-American”. I have listed those I could identify in this directory so that they do not escape our attention because this ministry inspires, trains, equips and connects such young people for the transforming mission of the Church.

We invite you to help us correctly identify Africans wherever they may be; so, please fill-out one of the two blank pages for us. This will help us a lot to be current.
